Bullying Prevention and Intervention Plan

Promoting Healthy Relationships within Positive School Climates

Norman G Powers Public School

OUR SCHOOL COMMITMENT

We are committed to establishing and supporting learning and working environments that are safe, welcoming, respectful, equitable, accessible, inclusive and free from discrimination, oppression and harm. Indigenous inherent rights, human rights and equity are at the center of our work. This fundamental commitment to human rights begins with meaningful investment in a Positive School Climate.

A Positive School Climate:

- Ensures that everyone is treated with dignity and respect;
- Expects, welcomes and includes everyone;
- Values, affirms and supports the expression of diverse identities;
- Promotes, protects and upholds Indigenous inherent rights and human rights – including students' right to education without discrimination and employees' right to employment without discrimination;
- Centres the rights of the child/student in ways that are not discriminatory and that do not cause or perpetuate harm;
- Prioritizes relationships, well-being and equity through a Whole School Approach.

While we work proactively to promote positive and respectful interactions, we will also address any behaviour or interaction that is likely to have a negative impact on the school climate, including bullying, discrimination and other forms of harmful interaction. In planning our responses, we will consider and provide support for all impacted staff and students, including those who were harmed, those who witnessed the harm, and those who caused harm.

We will promote a Positive School Climate in both proactive and responsive ways

MINISTRY STATEMENTS

“A positive school climate exists when all members of the school community feel safe, included, and accepted, and actively promote positive behaviours and interactions. Principles of equity and inclusive education are embedded in the learning environment to support a positive school climate and a culture of mutual respect. A positive school climate is a crucial component of bullying prevention.”

Taken from Ministry of Education of Ontario, PPM 145

“Bullying will not be accepted on school property, at school-related activities, on school buses, or in any other circumstances (e.g., online) where engaging in bullying will have a negative impact on the school climate.”

Taken from Ministry of Education of Ontario, PPM 144

HEALTHY RELATIONSHIPS

Healthy Relationships are grounded in treating one another with dignity and respect.

Healthy Relationships provide:

- A sense of security and stability
- Basic needs
- A sense of being valued and belonging
- Support and guidance to learn essential skills and understanding
- Protection from excessive stress

All adults who are responsible for children play an important role in teaching them about healthy relationships and bullying. Teachers, parents/guardians, and other adults involved in children's lives:

- Model relationship skills and attitudes
- Create positive situations in which children and youth interact.

Children will only learn positive relationship skills and attitudes if they observe and interact with adults who model positive relationships when interacting with children and adults.

Bullying: Aggressive and typically repeated behaviour by a pupil where...

 - ii. creating a negative environment at a school for another individual, and

- (b) the behaviour occurs in a context where there is a real or perceived power imbalance between the pupil and the individual based on factors such as ancestry, size, strength, age, intelligence, peer group power (e.g., popularity), economic status, social status, religion, ethnic origin, sexual orientation, family circumstances, gender, gender identity, gender expression, race, disability or the receipt of special education

For the purposes of the definition of “bullying”, behaviour includes the use of any physical, verbal, electronic, written or other means.

Strengths and Goals

What the Data Tells Us – School Climate and Well-being Surveys and Other Data

As part of the on-going monitoring and evaluation process, schools gather data from various sources, including school climate surveys of students, staff and parents/caregivers every two years. Our school data indicates the following:

Strengths:

- 70.9% of students report that this is a welcoming school
- 84.9% of students report that they feel safe at school
- 82% of students know how to report bullying

Based on the analysis of various sources of data, our school has identified specific bullying prevention and intervention goal statements for this school year. These goal statements will drive our actions for this year. Outcomes will be monitored and assessed using a continuous improvement cycle.

Goals:

- Create a school environment that supports, creates, and develops healthy and respectful relationships in the pursuit of building a strong sense of pride in our school
- Provide classroom-based practices that are focused and intentional, so that all students feel included and valued and have a voice in the learning environment
- Establish school-based practices that promote and foster a positive tone, including safety, acceptance and inclusion, a sense of belonging and respect

Proactive Approaches

What We are Doing in Our Classrooms and in Our School - Strategies that Promote a Positive School Climate

How Student Voice is Present in Our School

Engaging students to help shape the learning environment is an important component of a whole school approach in promoting a positive school climate – a climate in which *each and every* student feels that they matter. The following examples are highlights of student voice in action at our school:

- Student-created interactive bulletin boards (featuring student work, etc.)
- Authentic conversations held with students relating to their thoughts, feelings, experiences
- Identity webs and get to know you-type activities
- Co-created class expectations, agreements to foster positive school and classroom climate
- Student Leadership

- Equity Groups
- Spirit Days/Week

How we create the conditions whereby students feel safe to report bullying and other harmful interactions at our school.

Creating the conditions within which students may feel safe to report begins with investment in relationships and the promotion of a Positive School Climate. Additionally, procedures may be put in place that facilitate students and parent/caregiver reporting as well as procedures that outline the requirements for staff to report such instances in accordance with legislation.

Student Reporting:

- Reporting bullying or other harmful interactions to a trusted adult (e.g., parent/caregiver, teacher, administrator, support staff, police liaison officer).
- Using the “Report Bullying Now” button on the school/board website provides students a more discreet means of reporting bullying behaviours.

Staff Reporting:

- “The Education Act states that an employee of the board who becomes aware that a student at the school of the board may have engaged in a serious student incident shall report the matter to the principal as soon as reasonably possible” (PPM 144)
- When appropriate, staff complete and submit the “Safe Schools Incident Reporting Form – Part I” to the principal. The principal provides written acknowledgement to the employee using the “Safe Schools Incident Reporting Form – Part II” (PPM 144)

Parent/Community Reporting:

- Reporting bullying and other harmful interactions to the classroom teacher, support staff and/or administration
- Using the “Report Bullying Now” button on the school website

Strategies that help students to feel safe to report (e.g., relationship-building strategies, reporting mechanisms, awareness-building)

- Staff will continually build relationships with the students in order to provide the feeling of safety and trust.
- Students should be able to share things with staff members - both positive and otherwise (including bullying).
- Staff will go over other reporting mechanisms with students - i.e., telling other adults, using “Report Bullying” buttons on the website, etc. - and help build their awareness of what constitutes bullying, how to recognize it, how to help, etc.
- Ensuring the safety of all involved
- Responding to students behaviour that is likely to have a negative impact on the school climate
- Developing an action plan that is responsive and supportive
- Implementing a Safe School Safety Plan, when necessary
- Contacting the parents of the person(s) who has been harmed and the parents of the person(s) who caused harm, in accordance with legislations
